**EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview and email with Amir N. Penn (reg. No. 40.767) on 11/22/2005.

The application has been amended as follows:

In the claims:

Please cancel claims 1-31, 38-65, 72-76.

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Independent Claims 32 and 80 with dependent claims 33-37, 66-71, 77-79, 81-98; renamed to claims 1-34; among other things teach the limitation "a communications platform that receiving an electronic message;

parsing the electronic message to determine a designation for a user;

parsing the electronic message to determine a nickname of an endpoint designated in the electronic message, the nickname of the endpoint being distinct from the designation for the user, the nickname for the endpoint being selected from a plurality of nicknames and being dynamically dependent on the endpoint selected;

accessing a database, based on the determined designation of the user and the determined nickname of the endpoint, to determine an address of an endpoint designated in the electronic message, the database correlating the designation of the user to the plurality of the nicknames of endpoints, the database correlating the plurality of nicknames to a plurality of addresses;

determining a type of endpoint;

formatting at least a portion of the electronic message based on the determined type of endpoint; and

sending at least a portion of the formatted message to the determined address of the endpoint, where the nickname of the endpoint eliminates a sender to memorize the plurality of address for the plurality of endpoints."

in a communications platform that enables users to use nickname-based routing of messages. The dependent claims further define the endpoints to be email boxes, wired or wireless telephones, facsimile machines, paging devices or personal digital assistants and the user designation is non-changeable and the endpoint is prior to the @ in an electronic message.

The prior art does not teach the cited limitation.

Art Unit: 2155

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
